The Honorable Officials

Subject: Invitation to Participate in TechnoXian World Cup.

Dear Sir/Madam,

Greetings from WORSO (World Robotics Sports Organization)

It gives us immense pleasure to formally invite the schools, universities, STEM institutions, innovation clubs, and student robotics teams to participate in the prestigious TechnoXian World Cup 2026, scheduled to be held in Thailand from 23rd January to 25th January 2027.

TechnoXian is recognized as one of the world's largest robotics and AI championships, bringing together young innovators, engineers, researchers, educators, and technology enthusiasts from across the globe. Organized annually with international participation, the championship serves as a global platform for promoting robotics, artificial intelligence, drone technologies, coding, automation, and future-ready technological innovation.

Since its inception in 2014, TechnoXian has successfully hosted thousands of participants from more than 100 countries and has continuously promoted STEM education and collaborative international learning. Over the years, the championship has evolved into a global movement encouraging innovation, creativity, teamwork, and research among students and young professionals. <https://technoxian.com/>

The event includes multiple international challenge categories such as:

- Robo Soccer
- Drone Racing & Drone Soccer
- Bots Combat
- Robo Race
- Fastest Line Follower
- Maze Solver

- RC Craft
- Innovation Contest
- Water Rocket Challenge
- Robo Hockey
- Themed Robotics Challenges

TechnoXian aims to bridge education with future technologies by providing students practical exposure to engineering, robotics, and problem-solving in an international competitive environment. The platform also enables cultural exchange, global networking, and collaboration among educational institutions worldwide.

Key Highlights of TechnoXian:

- Participation from 100+ countries
- 15+ international robotics categories
- Thousands of student participants worldwide
- Global STEM and innovation platform
- International recognition and certification
- Exposure to emerging technologies and Industry 4.0 concepts
- Collaboration opportunities for schools, universities, and educational organizations (technoxian.com)

We believe the participation of teams and institutions will greatly enrich the spirit of global innovation and educational collaboration. We would be honored to welcome your esteemed institutions and student delegations to Thailand for this international celebration of technology and robotics excellence.

For registration, partnership opportunities, and detailed participation guidelines, kindly visit:
